THE growing tobacco in Robertson County will not, it is reported, make one-tenth of a crop as compared with that of last year. The drought has been so disastrous that many fields have been entirely abandoned.

By the aid of a wonderful instrument recently invented, Ballenger fits any eye with the proper lens, at once, and without extra charge. Go and see him, and you will not be worn out trying a dozen or more pair of spectacles.

JAMES W. FITZGERALD left yesterday for the Latonia fair and races at Covington. He took along with him Alcandre, Pearl Medium, Enterprize and several other fine horses which he will exhibit in the arena or speed rings.

WILLIAM T. COLEMAN, a native of Harrison County, but now a citizen of San Francisco, is said to have cleared \$3,000,000 in the salmon market this season. And yet Coleman isn't satisfied. He wants to be President. He can well afford to have such papers as the New York Sun "boom" him for the place.

The Teachers' Institute.

The Teachers' Institute met at the High School yesterday, and though the attendance was not as good as might have been expected the regular programme was taken up, and an interesting meeting was held.

Professor Hall read a very entertaining paper on geography, giving the advantages and importance of the study, with a brief though comprehensive outline of the history of the development of geographical knowledge. Professor Hall was followed by Miss Alice Dorsey, who gave an illustration of the use and method of teaching with a topic list. This was of great practical value, and was copied by the teachers present.

The afternoon session was opened by Superintendent Galbraith on the importance and method of studying mental arithmetic. He was followed by Professor Hall, Mr. Berry, Mr. Williams, Mr. Hixson, all of whom offered valuable suggestions.

The subject of spelling was discussed by Miss Sallie Burroughs, Miss Belle Golling and Mr. Berry. This was followed by a presentation of diacritical marks by Professor Hall.

The "Relation of Teacher and Pupil in and out of the School Room," was presented by Superintendent Galbraith at length, and elicited considerable interest and discussion.

Afterwards came the opening of the query box, which was full of interesting questions that brought out many teachers in a general discussion of them.

The meeting yesterday was on the whole pleasant and profitable, and the institute promises to be one of unusual interest.

Must Return to Scotland.

The Government authorities at New York have decided that Cummings, the man who came from Scotland to work on W. A. Sudduth's fancy dairy farm, at Flemingsburg, in answer to an advertisement, must be returned to Scotland at once as coming within the Labor Contract act. Cummings had money and was in no sense in a dependent position, but the fact of answering an advertisement (inserted in an American newspaper) was held to be a violation of the spirit of the law. A letter from Mayor Hewitt, of New York, to Congressman Breckinridge of this State, written a few days ago, characterized the detention as an outrage, and said the law was passed by demagogues. Cummings was to help on a stock farm. The order for return was issued by the Treasury Department, and over strong protest. The defense of this man cost the steamship company (Anchor Line) and Mr. Sudduth a considerable sum of money.

C. P. HUNTINGTON is back from his trip to Europe, and will be "stirring" up the contractors on the new railroad before long.

JAMES HUMLONG, of Bird City, Kansas, is here with his children on a visit to his friends and relatives. He formerly lived in Charleston Bottom.

THEY are boring for natural gas at Richmond, Ky., and have reached a depth of over 500 feet without finding it. The company intend going 2,000 feet, if gas is not found at a less depth.

WESLEY ALEXANDER, colored, was before Squire Miller yesterday on a charge of petit larceny. "Wes" is a barber by trade. He is accused of stealing some money—the amount not known—from Sam Lee's laundry Sunday night. Squire Miller held him over to answer the charge in the Circuit Court, and Wes was committed to jail in default of \$150 bail.

THE trial of John Keeton at Morehead resulted in a hung jury, ten for conviction and two for acquittal. The case ended Saturday. Boone Logan defended Keeton, and in his speech before the jury it is said he roasted the Commonwealth's witnesses in the most scathing manner. He charged that they were either actuated by family interests or by money to swear the way they did, and that they were all a set of perjurers.

THE Governor has pardoned George Peel, of Nicholasville. Peel killed John Daugherty in an election fight, last February, and was sent to the penitentiary for three years.

THE remains of Isaac B. Sandusky were interred yesterday at Millersburg. His death occurred Sunday. He was a well-known citizen of Bourbon County, and was sixty-eight years old.

GENERAL AND LADY WASHINGTON will hold a reception this evening at 8 o'clock, at Professor Richeson's residence in Chester. Tickets can be had at George T. Wood's and Pecor & Co.'s drug stores.

WORK on the survey of the Louisville Southern railroad extension to Lexington is progressing finely. The engineers are now in Woodford County, and expect to reach Lexington by the last of the present month.

THE large barn of Rev. James Moore, situated four miles from Augusta, in Clermont County, O., was entirely consumed by fire at an early hour Saturday morning. Three valuable head of stock were burned. Loss considerable; insurance not known.

THE last drawing of the Louisiana State Lottery took place August 9th, but the official list of the prizes has failed to make its appearance, we are told, in this city. We are requested by a number of ticket-holders to ask any one having such a list to leave it at this office.

Dr. Pierce's "Favorite Prescription" perfectly and permanently cures those diseases peculiar to females. It is tonic and nerve, effectually allaying and curing those sickening sensations that affect the stomach and heart, through reflex action. The backache and dragging-down sensations all disappear under the strengthening effects of this great restorative. By druggists.

THE Manchester boys played a match game of base ball last Saturday with the "Concords," on the latter's ground, and were defeated by a score of ten to eleven. The "Manchesters" were ahead until the ninth inning—ten to seven—but the "Concords" got in four runs and had two men out when the game was called. It is pronounced one of the most exciting games ever played at Concord.

At the suggestion of Dr. Strode, his attending physician, Dr. Hays went to Cincinnati last Friday to consult a specialist in regard to the injury received to one of his eyes some two weeks ago. We are gratified to learn that, after a thorough examination, the specialist gave it as his opinion that, unless some altogether unanticipated change takes place, the restoration of sight is only a question of time.

"The leprous distillment, whose effect holds such an enemy with blood of man, That, swift as quicksilver, it courses through The natural gates and alleys of the body," and causes the skin to become "barked about, most lazily, with vile and loathsome crust." Such are the effects of diseased and morbid bile, the only antidote for which is to cleanse and regulate the liver—an office admirably performed by Dr. Pierce's "Golden Medical Discovery."

A RATHER singular accident is said to have occurred on the farm of John R. McFean at Mount Tabor, Fleming County, the other day. A fine horse belonging to Mr. McFean was drinking from a trough, when the land slipped and precipitated the animal headforemost into a well, which, twenty feet down, tapered to a small width, wedging the horse so that extraction was impossible. The animal had to be killed and dissected to be removed.

THE steamer B. S. Rhea, plying in place of the St. Lawrence, failed to put in an appearance yesterday, but arrived on time this morning. Her detention yesterday was owing to an accident which happened on her up trip Sunday night. While passing Coney Island that night, her smoke-stack caught the rope-walker's wire which is stretched across the river at that point, and was torn down. The wire was also broken. The boat was so badly disabled that she was compelled to return to Cincinnati for repairs.

SOME of the fakirs and "shellmen," who took in the fair here last week, got into a row at Paris Saturday night, while returning to Cincinnati. It is reported they quarreled over a division of the spoils, and it resulted in a lively little cutting scrape during which Joe De Pugh, a Cincinnati sure-thing man, was badly worsted. He and a young fellow by the name of George Hall, of Covington, were quarreling, when Hall jerked out a murderous-looking knife and slashed De Pugh across the face. The cut is about nine inches in length and extends from the side of the head down into the neck. The cut may terminate fatally.
